### CERTIFICATION

All work must be the original work produced by the applying artist. All booths must have sufficient weights on each leg of the tent. You may be asked to take down your tent if it is not sufficiently weighed down during the festival when security comes through to check. This is required for everyone's safety and for the safety of your art! Ensure that you have a minimum of 50lbs of tent weights secured to your booth at all times. We encourage artists to utilize white, commercial quality tents for presentation and safety of your artwork and others. No part of your presentation shall block, obstruct or interfere or present a potential hazard for your neighbors and guests. Overnight security will be present, but make sure that your materials are properly secured and stored each evening to prevent overnight damage in case of wind /storm/rainfall/flooding. Must have booth set up and vehicles removed before 10am, and at end of festival all materials must be packed up before bringing vehicle into area for loading. Booth fees are \$50-10'x10' & \$100-10'x20'. No Refunds.
